

Benjamin Hustler

Coquitlam, BC 604-727-51263 ben_hustler@sfu.ca [LinkedIn](#) [Portfolio](#)

Software development/UX student with strong understanding of programming principles and computer science fundamentals. A passion for 3D animation has led to knowledge of key 3D/VFX workflows. Seeking an internship to apply graphics and programming skills to real-world VFX work.

EDUCATION & RELEVANT COURSEWORK

SEPT 2024 - PRESENT

Simon Fraser University | BSc, Interactive Art and Technology | Minor in Computing Science

CGPA: 4.08 | President & Dean's Honour Roll | Undergraduate Scholars Entrance Scholarship Recipient

IAT 167: Digital Games: Structure and Programming | Grade: A, Class Average: B-

- Applied linear mathematical concepts in order to build systems for collision detection, enemy intelligence, and effects simulation in Java.
- Developed procedural animation and effects systems using parametric graphics coding.
- Designed reusable frameworks for various effects, characters, and mechanics.

CMPT 225: Data Structures and Algorithms | Grade: A, Class Average: C

- Implemented various data structures to solve problems requiring optimized space usage, access speed, or mutability.
- Demonstrated strong understanding of debugging skills when analyzing various sorting algorithms.

IAT 238: Foundations for Designing Interactions | Grade: A, Class Average: B

- Conducted field research to generate problem statements and address them through UX design.
- Framed and reframed problems to identify meaningful intervention points and create beyond surface-level design solutions.

SKILLS & QUALIFICATIONS

Highlighted Qualifications

- Extensive experience with 3D workflows, (for instance IK vs FK rigging, SubD modeling, PBR materials, and graph-based motion).
- Knowledge of computer science fundamentals (Time complexity, sorting algorithms, data structures, types of coding language).
- Proficient in human-conscious UI/UX strategies, accessibility standards, and iterative design processes.

Technical Skills

- | | |
|---------------|-----------|
| • HTML/CSS/JS | • C++ |
| • Git, Github | • Java |
| • Adobe suite | • Blender |
| • Figma | |
| • Python | |

WORK EXPERIENCE

SEPT 2023 - PRESENT

Aquatic Leader (Lifeguard) | City of Coquitlam

- Demonstrates situational awareness and rapid decision-making in high-responsibility environments.
- Shows initiative by using off-deck time for cleaning and operational tasks, contributing to improved facility cleanliness and patron satisfaction.

JULY 2023

Waterfront Lifeguard | Sasamat Outdoor Centre | Belcarra, Port Moody

- Took the initiative to begin closing tasks early during spare time resulting in a lighter load for closing staff.
- Ensured swimmer safety through active supervision and enforcement of waterfront safety rules.

OCT 2021 - MAY 2024

Crew Member | McDonalds | Coquitlam

- Maximized efficiency and quality of service through clear communication and attentiveness.
- Received multiple employee of the month awards for strong work ethic and good attitude.
